## BOYS VS. GIRLS

FORMER HAVE 138 MAJORITY IN NODAWAY SCHOOLS.

## ENUMERATION GROWS

TWELVE TOWNS SHOW INCREASE—South Wildcat Largest, Lone Valley the Smallest of Rural Schools.

Nodaway county has done one of two things this last year. Either she has grown in population, or the school enumerators have been more searching than they were last year, for the school census taken last May shows that there are 8,068 school children in the county as against 7,959 in May, 1913. This is a gain of 109, and probably a gain due to the growth of population. And of these 8,068 school children, the boys are in a safe majority of 138, for there are 4,103 boys and 3,965 girls.

This gain has all gone to the city schools, but not satisfied with that they have swelled their numbers by taking away still more pupils from the country schools. While the total gain in the number of school children for the county is 109, the city schools have gained 122 in the last year. And this gain was made by twelve of the nineteen towns in the county. Pickering, Burlington Junction, Wilcox, Maryville, Quitman, Ravenwood, Conception Junction, Arkoe, Old Conception, Graham and Guilford are the towns that have made gains. Graham has made the largest gain with an increase of 86 pupils. Her enumeration is 215. Quitman comes next with an enumeration of 97 and a gain of 50. Maryville has gained but 3. The total enumeration of the towns is 3,604.

Of the country schools, district No. 122 is the largest. This is the South Wildcat school, which has 91 children of school age. This same district was the largest last year with an enumeration of 88. Districts 173 and 62, the Whiteford and Myrtle Tree schools, are tied for second place among the rural schools. They each have an enumeration of 56. For Whiteford this is the same as last year, but Myrtle Tree has gained 3.

The smallest district in the county is No. 47, the Lone Valley district. It has but three children, two boys and one girl, the same as last year. A few districts have but six or seven school children in them, but the average is about twenty-five.

Outside of Maryville there are no colored children. In Maryville there are nine colored boys and fifteen colored girls in the enumeration. Of the white children there are 604 boys and 587 girls.

## GRIZZLIES WIN THIRD GAME.

Defeat Giants 6-3—Letter Team Now Leads the Normal League.

The Grizzlies won their third game of the season yesterday afternoon when they defeated the Giants by a 6-3 score.

The game was warmly contested throughout and was anybody's game until the third inning, when James fumbled Wogan's long fly, letting in three scores. This gave the Grizzlies a lead which the Giants were unable to overcome. Ferguson for the Giants pitched good ball, but was unable to win with the support which his teammates gave him.

The standing of the teams is:

## MATRON SELECTED TALK ON Y. M. C. A.

MRS. SMITH CASTEEL WILL HAVE JUDGE SELDON SPENCER WILL CHARGE OF REST ROOMS.

## CLUBS TO PAY SALARY WAS AT HEAD OF WORK

Women's Federation Will Give Benefits to Raise Expense Money—Will Be Ready in July.

Mrs. Smith Casteel was elected matron of the women's rest rooms at a called meeting of the executive board of the City Federation of Clubs held Friday night. There were four applicants for the position.

The work on the new rest rooms in the court house basement is being rapidly done and they will be ready for occupancy early in July.

When completed the place will be very commodious and comfortable. There will be three rooms, two on the south and one on the north. The outside entrance will be from the south, and there will be two inside entrances from the corridor above.

The Federation has taken the responsibility of paying the matron's salary and for this purpose a series of benefit affairs will be given. This plan will be followed until a regular fund for that purpose is established.

A meeting of the furniture committee will be held Monday afternoon and the furnishings for the rooms decided upon. The Federation has also taken upon itself the furnishing of the quarters, and started the fund with the proceeds of magazine day this spring. The entire furnishings cannot be selected at this time, as the limited funds will not allow the purchase of all the women would like to get, but they hope to be able to do this at a very early date in the future.

## GOOD CROPS AND GOOD BUSINESS.

S. G. Gilliam and Joseph Jackson, Jr. Believe That This Will Be a Prosperous Year.

Yesterday's St. Louis Republic printed a crop story made up largely of letters from prominent bankers over the state, in which they predict good crops, good financial and business conditions and a prosperous year for Missouri. Two of these letters were from S. G. Gilliam and Joseph Jackson, Jr., of the Gilliam-Jackson Loan and Trust company and the First National bank of Maryville. The letters are:

Joseph Jackson, Jr., cashier of the First National bank of Maryville, Mo., writes:

At the present time all indications are that we will have a bumper yield of corn and small grain will yield up to a ten-year average. Business conditions are good, however bank de-

posits show a decrease from three months ago, which may be expected, but are practically the same as twelve months ago.

The demand for loans is considerably stronger than this time last year and the bank discounts are running 25 per cent higher.

This bank looks upon the new currency law with favor and is of the opinion that the same will be a benefit to business in general.

S. G. Gilliam, president Gilliam-Jackson Loan and Trust company, Maryville, Mo.,:

The crop prospects in this section are

very promising and conditions generally such as to justify the expectation of very satisfactory business conditions for the fall and winter, if not more than ordinarily good.

Finally the class scored and judged a herd of twenty-seven calves.

Ralph Marcell went with the class and took motion pictures of the class' work with the cattle and of some of the individual animals of the Wiles herd.

## FATHER OF MRS. KOCH DEAD.

Aged Man Dies Saturday Morning at the Home of His Daughter.

John Halla, aged 76 years, died Saturday morning at the home of his daughter, Mrs. R. G. Koch, 525 West First street.

The time for the funeral service will not be arranged until the arrival of Mr. Koch, who is expected in Maryville Saturday night. The body will be taken to the old home at Bucyrus, O., for burial.

Mr. Halla had made his home in Maryville with his daughter for the past six years. His death was the result of a paralytic stroke suffered Friday evening. While rather feeble, he was as well as usual and Friday evening, as he started from the porch to his room about 8 o'clock he fell unconscious and remained in that state until his death.

## OWLS LODGE DISBANDS.

Membership is Not Large Enough to Meet Expenses, so Charter Is Given Up.

The members of the Owls lodge of Maryville met Thursday evening and disposed of all of their belongings at auction.

A. S. Robey, who is president of the lodge, stated this morning that the club will meet for the last time Monday evening, at which time the affairs of the club will be settled and their charter surrendered. The reason for disbanding, Mr. Robey said, was that the membership had become so small that the dues of the lodge were not sufficient to pay the running expenses of the organization. It was thought best under the circumstances to give up the charter.

## City Dads in Motionless Movies.

The city fathers and everyone else at the city hall posed for Ralph Marcell this afternoon while he put them into "Maryville in Motion Pictures." Mr. Marcell made the film move all right at the rate of thirty feet a second, or whatever it is, but the posers, realizing the enormity of the occasion, stood motionless and with grim determined faces until it was all over.

## Wabash Delayed by Burned Bridge.

The Wabash train No. 14, due in Maryville at 9:47 o'clock last night, was delayed several hours because of a burned bridge near Bingham, Ia. The train had to be routed from Shenandoah through Clarinda to Burlington Junction before it could get to Maryville. Train No. 1 this morning was sent over the same route. Regular service probably will be resumed tonight.

For the second time this summer the temperature went to 98 yesterday. Early this morning the weather turned much cooler. Today's minimum was 64.

## FIRST ACCIDENT

CAR HITS SANDPILE NEAR CULVERT AT 2 A. M.

ROADS ARE DANGEROUS

Drivers Warned to Be Careful—Culverts and Bridges Will Be Torn Out All Summer.

The first accident due to the road work which is being done in Polk township occurred about 2 o'clock this morning, when a motorizing party from Clarinda, Ia., ran their car into a pile of sand. No one was hurt, but the car was damaged so that help had to be got from town.

The accident occurred three and one-half miles northwest of Maryville, near the Starr farm. One of the road gangs had been building new culverts. At one place in the road, where a culvert was torn out and had not been rebuilt, the workmen had erected a barrier by laying plank across the road on tress. But the accident occurred at a place farther on, where the road was open.

The motorists had passed the first place, but in some way ran their car into a pile of sand at the second culvert. This sand was at one side of the road. The front wheels of the car were spread and bent so that it would not run. Aid

THE HOME OF GOOD GOODS AT THE LOWEST PRICES

**The Paige—and Public Demand**

In Three Years, Paige Sales Have Increased  
From \$44,000 to more than \$1,250,000 a Month

These astounding figures are indisputable evidence of Paige supremacy in the medium price field.

They indicate an increasing demand for Paige cars that is without parallel in the middle division of the Automobile Industry. They affirm plainly and clearly that the Paige is a "preferred" investment with the motor buying public—the "first choice" of men who weigh motor car values.

As you turn these figures over in your mind, remember that increased sales can only come as a result of increased demand. The public does the buying—the public alone determines whether automobile sales shall increase or decrease.

So—above all—these figures mean that the motor public has rendered an overwhelming verdict in favor of the Paige. In the most substantially convincing way—by an investment of over \$1,250,000 a month—Motor Car buyers have selected the Paige as the best value of the medium priced field.

With the facts before you—in the face of such sweeping evidence—can you afford to purchase any car until you have carefully investigated the Paige? Isn't it logical to assume that there is a tangible, practical reason back of this marked preference for one car?

See the Paige today. The answer is in the car itself.

**MR YNOL IS REPLIES  
TO SENATOR NORRIS**  
Letter of Attorney General Criticizes Statement of Nebraskan.

Washington, June 27.—Attorney General McReynolds' determination not to announce at present his purpose as to possible criminal prosecutions in connection with the affairs of the New Haven railroad system was emphasized in a letter read before the senate by Senator Norris. The letter, written by Mr. McReynolds, criticised statements made on the floor of the senate by Senator Norris as to the department attitude towards the interstate commerce commission investigation of the New Haven.

Senator Norris had declared in discussing the matter: "The attorney general did not have in contemplation any criminal action and nobody has been given immunity in that case," and had referred to a "statement from the attorney general's office to the effect that there never was in contemplation any criminal action; that there was no violation of any federal statute in all the proceedings that were had in the New Haven affairs."

In his letter, the attorney general said:

"The language which you unfortunately employed is out of harmony with the real facts."

"The assertion that 'the attorney general did not have in contemplation any criminal acts and nobody has been given immunity in that case,' was unwarranted and misleading. Speaking in your presence, I had expressly declined to declare my plans or purposes and this has been my uninterrupted attitude. It was, therefore, impossible for you to know what they were, and yet you undertook to make announcement in respect to them. As is well known, Mellen, a conspicuous figure, was then, and is now, under indictment in the federal court, because of certain transaction connected with New Haven affairs. How far his examination by the interstate commerce commission gave immunity need not be discussed here."

**DOCTORS END S.SSION**

American Medical Association Asks Federal Control of Leprosy.

Atlantic City, June 27.—With a plea for the federal care and control of leprosy, eradication of child labor and an improvement of the country's milk supply, the meeting of the American Medical association came to an end.

The resolutions presented by Dr. William A. Pusey of the section on dermatology state that leprosy exists in certain parts of the country and is on the increase; that those afflicted with leprosy are subjected to the most inhuman treatment, and that many lepers are traveling in interstate traffic, constantly exposing the general public to the contagion.

Resolutions deplored the condition under which many thousands of children labor were submitted by Dr. Harry B. Favilox of Chicago, and they were adopted without a dissenting voice.

Overeating, especially of meats, and the excessive use of alcohol and coffee cause many cancers, and the only hope of their extinction lies in absolute subsistence on vegetables, with the exclusion of coffee and alcohol, according to a statement made by Dr. L. Duncan Bulkley of New York. He said he had treated many cases of cancer by a vegetarian diet.

**Wants Troops Ready For Riot.**

Butte, Mont., June 27.—News from Washington that Governor Stewart has asked that federal troops be moved from Fort Vancouver to Fort Missoula so as to be within striking distance if trouble breaks out here again between the factions of the miners, caused surprise here. Such action, however, in the part of the governor had been expected in certain circles, in view of the seriousness of the disturbances in the last two weeks.

**Rebels' Silence Causes Gloom In Mediation Camp.**

**FEARED NOW INSURGENTS OUT**

Few Are Certain Constitutionalists Will Participate in Meet Planned by Envoy—Young Terrazas Not in Peril.

Niagara Falls, Ont., June 27.—After another day of waiting, with no word of the plans of the Constitutionalists with reference to the proposed informal conference with the Huerta delegates over Mexico's internal affairs, the mediation colony is showing signs of anxiety.

Few are certain the Constitutionalists will participate. It became apparent that, although spokesmen of General Carranza had expressed themselves in favor of the conferences, the Constitutional chief had by no means made up his mind on the subject. It is expected that strong pressure will have to be exerted to persuade him to agree to the plan set forth by the mediators when they drew up the protocol outlining methods for the adjustment of the international side of the problem and leaving the selection of a provisional president to be determined by the two Mexican factions.

The Constitutional victory at Zacatecas, it is recognized, may have a psychological influence on the situation. If it produces cohesion in the Constitutional ranks and a margin for lust for more military successes, close observers think the Constitutionalists will be less disposed to leave the question to diplomatic discussion.

**Terrazas in No Peril.**

El Paso, Tex., June 27.—General Villa notified the state department at Washington that General Luis Terrazas, Jr., who has been the subject of representations by Secretary Bryan, was in absolutely no personal danger. Terrazas had been held a prisoner at Chihuahua City as hostage because of the activity of his father, General Luis Terrazas, Sr., in the removing of cattle from the state. The Terrazas family is the largest holder of land in Chihuahua. Its property has been confiscated by the revolutionists.

**BROKERS SUE ROCK ISLAND**

Seek to Recover Claims Aggregating More Than Five Million Dollars.

New York, June 27.—An action against the Chicago, Rock Island and Pacific Railroad company and the Keokuk and Des Moines Railway company to recover claims aggregating more than \$5,000,000 was filed in the supreme court on behalf of Henry L. Clark & Co. and Sartorius & Einstein, two New York brokers, who claims to own or represent more than one-fourth of the outstanding preferred stock of the Keokuk and Des Moines.

The action calls for an accounting of rentals due under a lease made in 1878 by the Keokuk and Des Moines of its entire system. The plaintiffs contend that the Keokuk and Des Moines stockholders have been deprived of about \$5,000,000 because of mismanagement of the leased line by the Chicago, Rock Island and Pacific company. It is also alleged the latter company has diverted traffic from the leased line.

**Marshall and Clark Will not Get Autos.**

Washington, June 27.—It took a roll call, a recapitulation, a challenge of the result, a second vote, which resulted in a tie, and finally a third roll call in the house to decide that Vice President Marshall and Speaker Clark would not get government automobiles and then the question was left in such shape that it will then be taken up in conference.

**Mulholland Heads Rotary Clubs.**

Houston, Tex., June 27.—Frank C. Riggs of Portland, Ore., was installed as vice president of the Pacific district, at the final session of the International convention of Rotary clubs here. Frank Higgins of Victoria, Canada, was chosen vice president for the western division of Canada. Frank L. Mulholland of Toledo was elected president of the organization.

**Awarded Damages Against Nebraskan.**

Atlanta, Ga., June 27.—J. N. Bateman of Atlanta was awarded damages amounting to \$5,000 against Frank Rothleutner, a Nebraskan, who sought to obtain a verdict of \$20,000 against Bateman for an alleged fake poolroom operation. The verdict was rendered by a jury on a counter suit filed by Bateman.

**Owen Stock Exchange Bill Re-referred.**

**VICTIMS OF SALEM FIRE CARED FOR****Measures for Relief of 18,000****Homeless Proceed Fast.**

Salem, Mass., June 27.—Measures for the relief of the 18,000 persons made homeless in the conflagration proceeded rapidly. More than 3,500 were directly dependent upon the relief committee for shelter, while 4,500 waited in bread lines for the food which streamed into the city.

Those cared for in the tented camps were of the poorer class, mostly foreigners. Nearly all the well-to-do had found refuge with friends and relatives elsewhere.

Insurance adjusters who went over the devastated district estimated the loss at \$12,000,000, of which \$10,000,000 was covered by insurance.

The Naumkeag Steam Cotton company was the heaviest individual loser. The loss on its plant was placed at \$3,500,000.

Fourteen hundred employees were thrown out of work by the destruction of these mills. The total number added to the ranks of the unemployed was estimated at 9,000.

Immediate steps are to be taken for rebuilding the city. In the meantime the unemployed will be given work in the rehabilitation of the city or will be provided with work in nearby places.

**COLUMBIA CREW OAR CHAMPIONS**

Pennsylvania Second and Cornell Third in Final Race.

**SYRACUSE IS IN FOURTH PLACE**

New York University Team's Triumph Result of Fierce Spurt—Ithacans Gain Early Lead in Junior and Freshmen Contests and Capture Both.

Poughkeepsie, N. Y., June 27.—Columbia won the intercollegiate rowing championship on the Hudson river in the final race of four miles by a scant

margin.

Cornell third, Syracuse fourth, Washington fifth, Wisconsin sixth. Columbia's time was 19:37 45.

Columbia's victory was the result of a desperate and sustained spurt in the final half mile. The Cornell crew, exhausted in trying to keep pace with the victors, faltered and slipped back into third place at the finish.

Better fortune attended the efforts of the Cornell junior varsity and freshman eights, each combination in turn winning its race in impressive fashion.

The victory of the Columbia crew after twenty years' effort was extremely popular and all Poughkeepsie celebrated the event in an uproarious fashion.

From the start the Pennsylvanians were a decided factor in the racing, rowing a deliberate, but powerful and finished, stroke. Throughout the major portion of the contest the Quakers set the pace and refused to be shaken off by the repeated spurts of Columbia and Cornell. It was only in the last quarter mile that Pennsylvania relinquished her lead and it appeared that this was due more to a lack of fighting spirit than any superiority on the part of the winning eight. Pennsylvania finished more like a machine than a combination of oarsmen, rowing steady and true, while Columbia and Cornell were fighting like wild men for the lead.

The race furnished an exciting spectacle for the 50,000 persons who lined the river banks and crowded the steamboats and yachts at the finish, despite the fact that Syracuse, last year's winner, and two western crews, Wisconsin and Washington, were early eliminated by the hot pace.

**DUN'S REVIEW OF TRADE**

Reports From Principal Centers Continue to Be Irregular.

New York, June 27.—Dun's Review says: Reports from the principal trade centers continue irregular, but favorable advices outnumber those of opposite character, especially in agricultural sections. The large dry goods suspension and the disastrous fire in New England were, naturally, disturbing features in the week. High temperatures again facilitated the distribution of seasonable goods. This month has witnessed an expansion in demand for iron and steel, yet price concessions are still a feature. The transportation companies are still busy.

Insurance adjusters who went over the devastated district estimated the loss at \$12,000,000, of which \$10,000,000 was covered by insurance.

The Naumkeag Steam Cotton company was the heaviest individual loser. The loss on its plant was placed at \$3,500,000.

# DAILY DEMOCRAT FORUM

LARGEST CIRCULATION OF ANY DAILY PAPER IN ANY MISSOURI TOWN OF 5000 POPULATION

VOLUME 5.

MARYVILLE, MISSOURI, SATURDAY, JUNE 27, 1914.

NO. 21.

## BOYS VS. GIRLS

FORMER HAVE ISS MAJORITY IN NODAWAY SCHOOLS.

## ENUMERATION GROWS

Twelve Towns Show Increase—South Wildcat Largest, Lone Valley the Smallest of Rural Schools.

Nodaway county has done one of two things this last year. Either she has grown in population, or the school enumerators have been more searching than they were last year, for the school census taken last May shows that there are 8,068 school children in the county as against 7,959 in May, 1913. This is a gain of 109, and probably a gain due to the growth of population. And of these 8,068 school children, the boys are in a safe majority of 138, for there are 4,103 boys and 3,965 girls.

This gain has all gone to the city schools, but not satisfied with that they have swelled their numbers by taking away still more pupils from the country schools. While the total gain in the number of school children for the county is 109, the city schools have gained 122 in the last year. And this gain was made by twelve of the nineteen towns in the county. Pickering, Burlington Junction, Wilcox, Maryville, Quillman, Ravenwood, Conception Junction, Arkoe, Old Conception, Graham and Guilford are the towns that have made gains. Graham has made the largest gain with an increase of 86 pupils. Her enumeration is 215. Quillman comes next with an enumeration of 97 and a gain of 50. Maryville has gained but 3. The total enumeration of the towns is 3,604.

Of the country schools, district No. 122 is the largest. This is the South Wildcat school, which has 31 children of school age. This same district was the largest last year with an enumeration of 88. Districts 173 and 62, the Whiteford and Myrtle Tree schools, are tied for second place among the rural schools. They each have an enumeration of 56. For Whiteford this is the same as last year, but Myrtle Tree has gained 3.

The smallest district in the county is No. 47, the Lone Valley district. It has but three children, two boys and one girl, the same as last year. A few districts have but six or seven school children in them, but the average is about twenty-five.

Outside of Maryville there are no colored children. In Maryville there are nine colored boys and fifteen colored girls in the enumeration. Of the white children there are 604 boys and 587 girls.

## GRIZZLIES WIN THIRD GAME.

Defeat Giants 6-3—Latter Team Now Leads the Normal League.

The Grizzlies won their third game of the season yesterday afternoon when they defeated the Giants by a 6-3 score.

The game was warmly contested throughout and was anybody's game until the third inning, when James fumbled Wogan's long fly, letting in three scores. This gave the Grizzlies a lead which the Giants were unable to overcome. Ferguson for the Giants pitched good ball, but was unable to win with the support which his teammates gave him.

## MATRON SELECTED TALK ON Y. M. C. A.

MRS. SMITH CASTEEL WILL HAVE CHARGE OF REST ROOMS.

## CLUBS TO PAY SALARY

Women's Federation Will Give Beuefits to Raise Expense Money—Will Be Ready in July.

Once Association's International President Is Law Partner of Forrest Donnell and Brilliant Speaker.

Mrs. Smith Casteel was elected matron of the women's rest rooms at a called meeting of the executive board of the City Federation of Clubs held Friday night. There were four applicants for the position.

The work on the new rest rooms in the court house basement is being rapidly done and they will be ready for occupancy early in July.

When completed the place will be very commodious and comfortable. There will be three rooms, two on the south and one on the north. The outside entrance will be from the south, and there will be two inside entrances from the corridor above.

The Federation has taken the responsibility of paying the matron's salary and for this purpose a series of benefit affairs will be given. This plan will be followed until a regular fund for that purpose is established.

A meeting of the furniture committee will be held Monday afternoon and the furnishings for the rooms decided upon. The Federation has also taken upon itself the furnishing of the quarters, and started the fund with the proceeds of magazine day this spring. The entire furnishings cannot be selected at this time, as the limited funds will not allow the purchase of all the women would like to get, but they hope to be able to do this at a very early date in the future.

## GOOD CROPS AND GOOD BUSINESS.

S. G. Gilliam and Joseph Jackson, Jr. Believe That This Will Be a Prosperous Year.

Yesterday's St. Louis Republic printed a crop story made up largely of letters from prominent bankers over the state, in which they predicted good crops, good financial and business conditions and a prosperous year for Missouri. Two of these letters were from S. G. Gilliam and Joseph Jackson, Jr., of the Gilliam-Jackson Loan and Trust company and the First National bank of Maryville. The letters are:

Joseph Jackson, Jr., cashier of the First National bank of Maryville, Mo., writes:

At the present time all indications are that we will have a bumper yield of corn and small grain will yield up to a ten-year average. Business conditions are good, however bank deposits show a decrease from three months ago, which may be expected, but are practically the same as twelve months ago.

The demand for loans is considerably stronger than this time last year and the bank discounts are running 25 per cent higher.

This bank looks upon the new currency law with favor and is of the opinion that the same will be a benefit to business in general.

S. G. Gilliam, president Gilliam-Jackson Loan and Trust company, Maryville, Mo.:

The crop prospects in this section are very promising and conditions generally such as to justify the expectation of very satisfactory business conditions for the fall and winter, if not more than ordinarily good.

CAR HITS SAND FILE NEAR CULVERT AT 2 A. M.

## ROADS ARE DANGEROUS

Drivers Warned to Be Careful—Culverts and Bridges Will Be Torn Out All Summer.

The first accident due to the road work which is being done in Polk township occurred about 2 o'clock this morning, when a motoring party from Clarinda, Ia., ran their car into a pile of sand. No one was hurt, but the car was damaged so that help had to be got from town.

The accident occurred three and one-half miles northwest of Maryville, near the Starr farm. One of the road gauge had been building new culverts at one place in the road, where a culvert was torn out and had not been rebuilt, the workmen had erected a barrier by laying plank across the road on them. But the accident occurred at a place farther on, where the road was open.

The motorists had passed the first place, but in some way ran their car into a pile of sand at the second culvert. This sand was at one side of the road. The front wheels of the car

## The Paige—and Public Demand

In Three Years, Paige Sales Have Increased  
From \$44,000 to more than \$1,250,000 a Month

These astounding figures are indisputable evidence of Paige supremacy in the medium price field.

They indicate an increasing demand for Paige cars that is without parallel in the middle division of the Automobile Industry. They affirm plainly and clearly that the Paige is a "preferred" investment with the motor buying public—the "first choice" of men who weigh motor car values.

As you turn these figures over in your mind, remember that increased sales can only come as a result of increased demand. The public does the buying—the public alone determines whether automobile sales shall increase or decrease.

So—above all—these figures mean that the motor public has rendered an overwhelming verdict in favor of the Paige. In the most substantially convincing way—by an investment of over \$1,250,000 a month—Motor Car buyers have selected the Paige as the best value of the medium priced field.

With the facts before you—in the face of such sweeping evidence—can you afford to purchase any car until you have carefully investigated the Paige? Isn't it logical to assume that there is a tangible, practical reason back of this marked preference for one car?

See the Paige today. The answer is in the car itself.

**MR YNOL'S REPLIES  
TO SENATOR NORRIS**

Letter of Attorney General Criticises Statement of Nebraskan.

Washington, June 27.—Attorney General McReynolds's determination not to announce at present his purpose as to possible criminal prosecutions in connection with the affairs of the New Haven railroad system was emphasized in a letter read before the senate by Senator Norris. The letter, written by Mr. McReynolds, criticized statements made on the floor of the senate by Senator Norris as to the department attitude towards the interstate commerce commission investigation of the New Haven.

Senator Norris had declared in discussing the matter: "The attorney general did not have in contemplation any criminal action and nobody has been given immunity in that case," and had referred to a "statement from the attorney general's office to the effect that there never was in contemplation any criminal action, that there was no violation of any federal statute in all the proceedings that were had in the New Haven affairs."

In his letter, the attorney general said:

The language which you unfortunately employed is out of harmony with the real facts.

The assertion that "the attorney general did not have in contemplation any criminal acts and nobody has been given immunity in that case," was unwarranted and misleading. Speaking in your presence, I had expressly declined to declare my plans or purposes and this has been my uninterrupted attitude. It was, therefore, impossible for you to know what they were and you undertook to make announcement in respect to them. As is well known, Mellen, a conspicuous figure, was then, and is now, under indictment in the federal court, because of certain transaction connected with New Haven affairs. How far his examination by the interstate commerce commission gave immunity need not be discussed here."

American Medical Association Asks  
Federal Control of Leprosy.

Atlantic City, June 27.—With a plea for the federal care and control of leprosy, eradication of child labor and an improvement of the country's milk supply, the meeting of the American Medical association came to an end.

The resolutions presented by Dr. William A. Pusey of the section on dermatology state that leprosy exists in certain parts of the country and is on the increase; that those afflicted with leprosy are subjected to the most inhuman treatment, and that many lepers are traveling in interstate traffic, constantly exposing the general public to the contagion.

Resolutions deplored the condition under which many thousands of children labor were submitted by Dr. Henry B. Pavlikoff of Chicago, and they were adopted without a dissenting voice.

Overeating, especially of meats, and the excessive use of alcohol and coffee cause many cancers, and the only hope of their extinction lies in absolute subsistence on vegetables, with the exclusion of coffee and alcohol, according to a statement made by Dr. L. Duncan Bulkeley of New York. He said he had treated many cases of cancer by a vegetarian diet.

## SHOW SIGNS OF ANXIETY

Rebels' Silence Causes Gloom  
In Mediation Camp.

## FEARED NOW INSURGENTS OUT

Few Are Certain Constitutionalists Will Participate in Meet Planned by Envoy—Young Terrazas Not in Peril.

Niagara Falls, Ont., June 27.—After another day of waiting, with no word of the plans of the Constitutionalists with reference to the proposed informal conference with the Huerta delegates over Mexico's internal affairs, the mediation colony is showing signs of anxiety.

Few are certain the Constitutionalists will participate. It became apparent that, although spokesmen of General Carranza had expressed themselves in favor of the conferences, the Constitutional chief had by no means made up his mind on the subject. It is expected that strong pressure will have to be exerted to persuade him to agree to the plan set forth by the mediators when they draw up the protocol outlining methods for the adjustment of the international side of the problem and leaving the selection of a provisional president to be determined by the two Mexican factions.

The Constitutional victory at Zacatecas, it is recognized, may have a psychological influence on the situation. If it produces cohesion in the Constitutional ranks and a margin for lust for more military successes, close observers think the Constitutionalists will be less disposed to leave the question to diplomatic discussion.

## Terrazas in No Peril.

El Paso, Tex., June 27.—General Villa notified the state department at Washington that General Luis Terrazas, Jr., who has been the subject of representations by Secretary Bryan, was in absolutely no personal danger. Terrazas had been held a prisoner at Chihuahua City as hostage because of the activity of his father, General Luis Terrazas, Sr., in the removing of cattle from the state. The Terrazas family is the largest holder of land in Chihuahua. Its property has been confiscated by the revolutionists.

## BROKERS' UE ROCK ISLAND

Seek to Recover Claims Aggregating More Than Five Million Dollars.

New York, June 27.—An action against the Chicago, Rock Island and Pacific Railroad company and the Keokuk and Des Moines Railway company to recover claims aggregating more than \$5,000,000 was filed in the supreme court on behalf of Henry L. Clark & Co. and Sartorius & Einstein, two New York brokers, who claims to own or represent more than one-fourth of the outstanding preferred stock of the Keokuk and Des Moines.

The action calls for an accounting of rentals due under a lease made in 1878 by the Keokuk and Des Moines of its entire system. The plaintiffs contend that the Keokuk and Des Moines stockholders have been deprived of about \$5,000,000 because of mismanagement of the leased line by the Chicago, Rock Island and Pacific company. It is also alleged the latter company has diverted traffic from the leased line.

## Marshall and Clark Will Not Get Autos.

Washington, June 27.—It took a roll call, a recapitulation, a challenge of the result, a second vote, which resulted in a tie, and finally a third roll call in the house to decide that Vice President Marshall and Speaker Clark would not get government automobiles and then the question was left in such shape that it will then be taken up in conference.

## Mulholland Heads Rotary Clubs.

Houston, Tex., June 27.—Frank C. Riggs of Portland, Ore., was installed as vice president of the Pacific district, at the final session of the International convention of Rotary clubs here. Frank Higgins of Victoria, Canada, was chosen vice president for the western division of Canada. Frank L. Mulholland of Toledo was elected president of the organization.

## Awarded Damages Against Nebraska.

Atlanta, Ga., June 27.—J. N. Bateman of Atlanta was awarded damages amounting to \$5,000 against Frank Rothleutner, a Nebraskan, who sought to obtain a verdict of \$20,000 against Bateman for an alleged fake poolroom operation. The verdict was rendered by a jury on a counter suit filed by Bateman.

## Owen Stock Exchange Bill Referred.

## COLUMBIA CREW OAR CHAMPIONS

Pennsylvania Second and Cornell Third In Final Race.

## SYRACUSE IS IN FOURTH PLACE

New York University Team's Triumph Result of Fierce Spurt—Ithacans Gain Early Lead in Junior and Freshmen Contests and Capture Both.

Poughkeepsie, N. Y., June 27.—Columbia won the intercollegiate rowing championship on the Hudson river in the final race of four miles of a scull race.

Cornell third, Syracuse fourth, Washington fifth, Wisconsin sixth. Columbia's time was 19:37 4-5.

Columbia's victory was the result of a desperate and sustained spurt in the final half mile. The Cornell crew, exhausted in trying to keep pace with the victors, faltered and slipped back into third place at the finish. Better fortune attended the efforts of the Cornell junior varsity and freshmen eights, each combination in turn winning its race in impressive fashion.

The victory of the Columbia crew after twenty years' effort was extremely popular and all Poughkeepsie celebrated the event in an uproarious fashion.

From the start the Pennsylvanians were a decided factor in the racing, rowing a deliberate, but powerful and finished, stroke. Throughout the major portion of the contest the Quakers set the pace and refused to be shaken off by the repeated spurts of Columbia and Cornell. It was only in the last quarter mile that Pennsylvania relinquished her lead and it appeared that this was due more to a lack of fighting spirit than any superiority on the part of the winning eight. Pennsylvania finished more like a machine than a combination of oarsmen, rowing steady and true, while Columbia and Cornell were fighting like wild men for the lead.

The race furnished an exciting spectacle for the 50,000 persons who lined the river banks and crowded the steamboats and yachts at the finish, despite the fact that Syracuse, last year's winner, and two western crews, Wisconsin and Washington, were early eliminated by the hot pace.

## DUN'S REVIEW OF TRADE

Reports From Principal Centers Continue to Be Irregular.

New York, June 27.—Dun's Review says: Reports from the principal trade centers continue irregular, but favorable advices outnumber those of opposite character, especially in agricultural sections. The large dry goods suspension and the disastrous fire in New England were, naturally, disturbing features in the week. High temperatures again facilitated the distribution of seasonable goods. This month has witnessed an expansion in demand for iron and steel, yet price concessions are still a feature. The transportation companies are still buying in a conservative manner. There was a decrease of 5.7 per cent in the gross earnings of railroads ~~regardless of the~~ for two weeks of June.

**VICTIMS OF SALEM FIRE CARED FOR**

## Measures of Relief of 18,000 Homeless Proceed Fast.

## SALEM, MASS., June 27.—Measures for the relief of the 18,000 persons made homeless in the conflagration proceeded rapidly. More than 3,500 were directly dependent upon the relief committee for shelter, while 4,500 waited in broad lines for the food which streamed into the city.

Those cared for in the tented camps were of the poorer class, mostly for beginners. Nearly all the well-to-do had found refuge with friends and relatives elsewhere.

Insurance adjusters who went over the devastated district estimated the loss at \$12,000,000, of which \$10,000,000 was covered by insurance.

The Naumkeag Steam Cotton company was the heaviest individual loser.

The less on its plant was placed at \$3,500,000.

Fourteen hundred employees were thrown out of work by the destruction of these mills. The total number added to the ranks of the unemployed was estimated at 9,000.

Immediate steps are to be taken for rebuilding the city. In the meantime the unemployed will be given work in the rehabilitation of the city or will be provided with work in nearby places.
